

GUARANTEED ANALYSIS

Magnesium (Mg) 20%

HOW DOES IT WORK?

TurfRx Mg promotes high plant absorption and utilization due to microencapsulation.

WHAT IS TURFRX MG?

TurfRx Mg is a reacted plant nutrient high in magnesium.

KEY PRODUCT BENEFITS

1. Improved chlorophyll production.
2. High magnesium absorption without nitrate, sulfate, or chloride.
3. Optimum plant color and quality.

MOST EFFECTIVE USE

SOIL APPLICATIONS

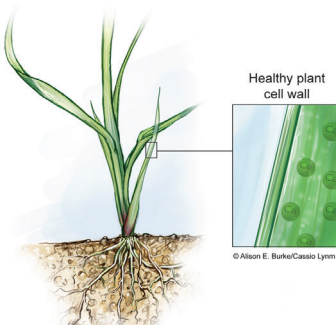

Apply directly to the surface and water in at a rate of 0.125 to 1 gallon per acre (0.75 to 3 ounces per 1000 ft²) in 50 or more gallons of water per acre.

Frequency, rate, and quantity of applications depend upon specific plant and soil requirements.

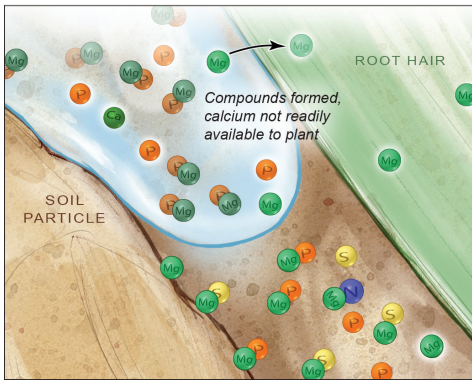

RELEVANT TERMS

MAGNESIUM NUTRITION - Critical to chlorophyll production and utilization in plants.

MICROENCAPSULATION - Reacted nutrient with surfactant technology.
