

Welcome to this month’s newsletter.

While the effects of global conflict, fuel supply issues, and inflation continue to dominate headlines, it is essential to focus on the factors within our control and influence. From an industry Association perspective, this remains our core mandate as directed by our members. These monthly updates provide a snapshot of current initiatives and outline where our efforts are concentrated on behalf of our membership. Given the diversity of our member base, we remain committed both to addressing common industry concerns (like fuel supply issues) and to advancing specific projects relevant to each part of our sector. Our new council members have often expressed surprise at the breadth of ongoing activity during council meetings and the number of areas we are represented in. As highlighted in each update, our aim is to ensure transparency about the wide-ranging work being undertaken to support all parts of our membership - every sector is valued equally.

Scott Lawson

Get it Right - Seminars and Webinars

In collaboration with FPAA and FCIA, we recently concluded a five-part webinar series on the global language of passive fire protection, featuring speakers from around the world as well as Australia and New Zealand. The series was well-received, particularly among New Zealand members, and we look forward to announcing additional initiatives soon.

Our next in-person GIR seminars, “Effective Fire Alarm Maintenance & False Alarm Reduction,” will be held from 26–28 May. We encourage you to review your staff training needs to identify team members who would benefit from attending. Further details can be found on page 6.

Upcoming sessions will address sprinkler and water supply topics, as well as standards workshops. We remain conscious of costs; our seminar and webinar rates are generally less than half those of comparable private courses, and we offer quantity discounts for multiple attendees. Many webinars continue to be available free of charge to FPA NZ members. ▶

COMMENTARY cont.

Reinvention of SIG Meetings

We regularly evaluate our practices, and when there is a demand for change, we adapt accordingly. The focus of Special Interest Group (SIG) meetings is shifting towards concise, informative presentations on relevant industry topics, aiming for greater efficacy, especially for CPD outcomes. This new structure intends to make meetings more efficient and purposeful, with pre-set agendas and timed discussions, ensuring productive outcomes. EVAC and Passive SIG's are the first to implement this format, with other groups set to follow.

Fire Australia

A reminder: our Australian partners will host Fire Australia beginning 5 May in Melbourne. Due to our close relationship with FPAA, a special offer has been extended to our members, please see page 10 for more information.

FireNZ 2026 Updates

We are pleased with the strong response to FireNZ's return to the South Island, only the second occurrence since 2011. We look forward to another successful event in Christchurch, following the positive feedback from 2022 participants. We encourage all South Island members to attend; both the tradeshow and the product showcase sessions are complimentary.

The call for papers is closing soon; please submit your proposals if you have not already done so. Limited sponsorship opportunities remain for both the FireNZ Awards and the main conference. Interested parties are invited to contact us regarding promotional options.

Standards Updates

As previously communicated, we are finalising scope and pricing with Standards New Zealand for the next two industry projects: NZS 4503 and NZS 4541. Further updates and dates for the initial industry workshop sessions where industry stakeholders can provide comments and feedback will be provided next month. Members were also reminded last month to participate in the consultation process for draft revision for PAS 4509 Firefighting Water Supplies that closed on Wednesday 29th April.

Fire Sprinkler Water Supply Issues

Over the past one to two years, we have collaborated with several major water providers across Auckland, Wellington, and Christchurch, and we are now also working with Water New Zealand to ensure our industry's voice is represented. We are contributing to their newsletter in the next month or two and we are hopeful that Chris Mak will present at the Water New Zealand Conference & Expo in September 2026, highlighting future water requirements for fire protection.

Closing Remarks

This month's edition provides a brief overview of our current activities in conjunction with previous updates. As always, please ensure that your entire team has access to the newsletter to stay informed about industry developments and upcoming events. Even if some topics are less directly relevant, staying updated benefits everyone employed in our industry.

Finally, congratulations to our newest provisional members and to those who have advanced to full membership status. ►

TE PAE, CHRISTCHURCH
TUESDAY 8TH - THURSDAY 10TH SEPTEMBER 2026

THE FORUM OF FIRE PROTECTION, FIRE SAFETY AND FIRE ENGINEERING PROFESSIONALS

Get it Right Seminar

**FIRE ALARM
MAINTENANCE***Reducing False Alarms***Effective Fire Alarm Maintenance
& False Alarm Reduction**

Effective fire alarm maintenance and false alarm reduction involves regular, professional servicing, good design and installing suitable technology, and addressing environmental factors like dust, moisture, or improper detector placement.

Key strategies include cleaning sensors, replacing batteries, upgrading old systems, using heat detectors in kitchens, and implementing protective covers to prevent malicious activations, and effective site/ contractor management procedures for system isolations.

An example of topics covered in this seminar include...

- › Design considerations – good design reduces maintenance costs to clients
- › Documentation – from installation to inspections to maintenance - identify risk and prevention
- › Site isolations - policy and procedures for clients and trade contractors
- › Fault Finding – techniques both old and new for service technicians and managers – don't just reset "fix it"
- › What the I.Q.P & Councils can do – use the Form 12A to ensure systems are "Maintained" and reliable
- › Open Forum – develop step by step check lists for fault finding and prevention

Presented by
GRAEME MATTHEWS

Director – Technical Manager
The Compliance Academy NZ

**WHO SHOULD ATTEND**

This Seminar will be ideally suited toward:

**System Designers • Estimators
Lead Installers • Inspectors
Fire Engineers who do Designs
Independent Qualified Persons (IQPs)
Service Technicians
Service Supervisors**

WELLINGTON: 26 MAY 2026
HENRY STADIUM, Members Lounge
8.00am – 4.30pm

CHRISTCHURCH: 27 MAY 2026
CHRISTCHURCH COMMODORE HOTEL
8.00am – 4.30pm

AUCKLAND: 28 MAY 2026
RNZ YACHT SQUADRON
8.00am – 4.30pm

INVESTMENT:

- MEMBERS: single \$350 each* +GST
2-4 \$300 each* +GST
5+ \$250 each* +GST
- NON-MEMBERS: \$450 each +GST

**Available to FPANZ Financial Members who are fully paid-up.*

Catering is provided for this full day seminar consisting of morning/afternoon tea & lunch.

HOFFE SIG Update

› Authors **Steve Smith & Lance Hunt** – HOFFE SIG Chairs

Well, another month has come and gone, seemingly the result is it's colder, fuel costs more (especially diesel) with other products also now costing more, and we have the makings of a big scrap in Iran. On the plus side the Christchurch covered stadium is now open with good comments coming from those who played and attended games there over the weekend, maybe there should be more covered stadiums?

On the HOFFE side of things we have a lot going on. Here is an update on some of our current projects:

- › **NZS4503** – documents have been filed with NZ Standards; these are expected back shortly enabling the revision to proceed.
- › **AS/NZS 1841, AS/NZS 1850 and AS2444** – The FP-003 committee is making good progress draft versions of these documents within the parameters of the scope we have been given. For us, the main impact is expected to be the changes around increased ratings on classes A combustibles, B burning liquids and F fats and cooking oils. New to these standards will be the establishment of a class for Fuels Miscible in water and a class for everyone's favourite, lithium-Ion.
- › **Non-compliant products** – this has been an ongoing topic for some time now, especially as it is often coupled with unsubstantiated claims of both performance and compliance. To date, the FPA has been in touch with both Worksafe and the Commerce Commission – and to be fair, both have shown interest in pursuing to topic. We have ongoing meetings set up and hope to find a way forward that achieves a result will follow as they continue to arrive in the country.

As you can no doubt see the AS/NZS Standards review also has implications for various parts of our NZS4503 review

The next HOFFE SIG meeting is on 17th June

Regards,

Steve Smith & Lance Hunt,
HOFFE SIG Chair 2025/2026

Passive SIG Update

› Authors **Steve Bradburn** – Passive SIG Chair

Well it certainly has been some clearly stressful times over the last few weeks with fuel supply issues and all the associated costs that invariably affect us all in trying to go about our day to day business.

Definitely worth keeping an eye on things as someone somewhere will be wearing additional costs to cover the above.

Our Passive SIG Meeting on 15th April was a good insight into the Association of Building Compliance Draft Code of Practice for Passive Fire Inspections.

Two speakers heavily involved in this document (Trent Fearnley & Rob Holland) spent a good deal of time going over some of the issues in the Passive Fire Inspection process of our industry. We could easily have spent another couple of hours of discussion – thanks to all those who participated in Q & A.

I will keep our members updated on this Document.

We will endeavour to get guest presenters in their specialist roles to do presentations at Passive SIG meetings going forward so any suggestions please email to passive@fpanz.org and we will follow through.

The FCIA completed Part 5 of their 5-part Webinars on 16th April. This series was a good insight into how Passive Fire Companies throughout the world approach the way they do things. This last session was dedicated to maintenance of installed Passive systems in buildings. It seems a common area of concern is how to implement a standard procedure for Facility Managers, Building Owners, Compliance Companies etc to work to as there are obviously costs involved.

The ongoing of Maintenance and Inspections is a very important part of what we do as Passive Fire Installers/Inspectors etc. Things can quickly get out of hand if we don't start implementing some type of safeguards like on-site registers, Qualified personnel, Regular Inspections, etc.

Passive Fire has come a long way in the last 6 years and is now regarded as an important trade in the Construction Sector. Thanks to all those that have been involved in this process, our next drive needs to be the ongoing Maintenance and Compliance of installed systems.

Regards,

Steve Bradburn,
Passive SIG Chair 2025/2026

Member benefits keep getting better.

FPANZ & FCIA are excited to announce the following updates & offerings to New Zealand-based members:

MANUAL OF PRACTICE REVISION

FCIA are currently revising the Manual of Practice (MOP) to ensure it serves as a superior, globally accepted standard. Our goal is to provide a framework that allows regions to plug in their own localised tools and offerings.

To further support this, we have launched two new membership types to engage design professionals and students. We would like to build on our existing MoU to offer these to the New Zealand industry.

NEW FCIA MEMBERSHIP CATEGORIES:

Category	Target Audience	Fee (USD)	Key Benefit	Application Form
Designer Member	MEP Consultants, Architects, and Specifiers.	\$200/year	Access to Firestop Education (Level 0 & 1)	Scan QR or click here to download Designer Member application form 
Student Member	Students in Architecture, Engineering, or Fire Protection.	\$50/Year	Access to Firestop Education (Level 0 & 1)	Scan QR or click here to download Student Member application form

n3 Trade Card and Bunnings PowerPass Changes

We've got some changes on the way at n3. FPANZ Members will still receive the same great discounts and offers from n3 and our Suppliers, but the way they access these discounts will change from 1 April 2026.

1. **TRADE CARD APP:** n3 is transitioning the physical n3 Trade Card product exclusively to the mobile app. The app offers faster access, easier management, and greater efficiency.
 - › **Member management:** Members can be easily added or removed.
 - › **Instant access to start saving:** No production or mailing delays - Members can download the app and start saving straight away.
 - › **Supplier management:** Supplier offers can be added instantly, and Members notified.
 - › **Better for the environment:** Reduced printing, postage, and delivery costs, and plastic waste.

2. **BUNNINGS POWERPASS:** Members currently using the n3 Trade Card with Bunnings will need to migrate to Bunnings PowerPass to continue receiving their n3 discounts. Alternatively, they can set up a credit account with Bunnings.
 - › **More functionality:** Check live pricing, confirm product availability, use self-checkout to save time, and access digital receipts in one place.
 - › **Simple setup:** Registering for a PowerPass account is quick and easy. Once set up, your Members can use it at Bunnings stores nationwide.
 - › **Team access:** Your Members can allocate PowerPass cards or app access to their team so they can continue using the n3 discount on cash purchases.
 - › **Tailored trade pricing:** n3 pricing will be automatically applied to their PowerPass account.

In the coming months, Bunnings will be phased off the n3 Trade Card app, so it's important that FPANZ Members start migrating to PowerPass to continue receiving their n3 discounts.

NEXT STEPS

n3 will communicate directly with your Members about these changes, including the migration to the Bunnings PowerPass and the move to the Trade Card app.

Please feel free to contact me with any questions. Your support through this transition is much appreciated.

**NAMING RIGHTS OF
OVERALL AWARDS & DINNER**

SPONSORSHIP \$16,000

**Emerging Fire Professional/
Technician**

**Fire Engineering
Excellence**

**Excellence in
Service**

Sustainability
SPONSORSHIP \$2,000

**Innovative
Product**

**Best PASSIVE
Fire Protection Project**
SPONSORSHIP \$2,000

**Best ACTIVE
Fire Protection Project**

For more information, or to sponsor a category at the FireNZ 2026 Fire Awards, contact: info@fpanz.org.nz

Use of FPANZ Logo

Recently we have noticed that some of our FPANZ members (and even non-members) have been incorrectly using our FPA trademarked corporate logo.

This logo is not to be used by any entity without the written permission of the Chief Executive Officer and/or FPANZ Board. The purpose of this logo is to provide a corporate identity for the Association in its general course of business activities.

The FPANZ membership tier status logos shown below are licensed to be used by any financial member of FPANZ who has signed up to the FPANZ Code of Ethical Conduct and is fully compliant with all its requirements.

For a list of logo guidelines please visit our website <https://www.fpanz.org/about/logo-guidelines>

If you are using an incorrect logo and would like to request a membership logo for use, please email info@fpanz.org

If you are not an FPANZ member and have not gained written permission to use the FPA logo, then we ask that you remove it from your website, email signature or anywhere else that it is currently being used.
