

Welcome to this month's newsletter.

We are nearing the end of the current 2025/2026 financial year, and renewal information will be sent to members within the next week or two. Please keep an eye out for this correspondence and let us know if there have been any changes in your organisation. We also have some exciting announcements for the year ahead, along with updates on current projects and other new ones planned for next financial year. In addition, we are pleased to be strengthening our collaboration with other organisations that support our members and the wider industry.

Scott Lawson

FireNZ Industry Awards

Next week marks the launch of the FireNZ Industry Awards. Entries open on 5 June. Once again, the FireNZ committee is proud to recognise industry participants who have excelled in their fields.

“The Fire Industry Awards celebrate the very best of our industry and recognise those who contribute to a safer New Zealand.”

Entries are now open for several awards to be presented at the FireNZ Conference and Exhibition, taking place in Christchurch from 8–10 September 2026.

Start thinking now about who deserves a nomination and submit entries early. Last year, several nominations arrived too late. The process is simple and completed online, so don't leave it until the last minute. Reflect on the achievements and progress made across the industry since last year's FireNZ and help us celebrate the people and accomplishments shaping a safer New Zealand.

Enter online from the 5th of June: <https://firenz.awardsplatform.com>

GIR Seminars Update

This month, we delivered another round of Get It Right seminars in Auckland, Wellington, and Christchurch, focusing on effective fire alarm maintenance and false alarm reduction.

We are always interested in delivering training on topics that matter to our members and the wider industry. False alarms remain an ongoing challenge, influenced by ▶

technology, training, technicians, building owners, standards, and other factors. One of the most valuable outcomes of these seminars is not just the formal content, but also the opportunity to share information, practical tips, and ideas that benefit the industry as a whole. We keep seminar pricing as affordable as possible to encourage strong attendance. While many of our webinars are now free for members, in-person seminars still involve venue, travel, and catering costs, so we maintain very modest member rates compared with similar industry offerings. We also have several more webinars and in-person sessions coming up over the next few months, so keep an eye out for topics that may be useful to you and your staff.

Competenz updates

Please see the latest updates from Competenz on page 4 of the newsletter. It provides a useful snapshot of the qualifications offered through Competenz, the long-standing relationship our industry has with the organisation, and what lies ahead. I would also like to acknowledge the many FPANZ members who have contributed through working groups to help update and modernise these qualifications. There are too many to name individually, but FPANZ members continue to play a vital role in developing and maintaining qualifications, and I expect that contribution to continue.

Membership Updates

Congratulations to the following members who have promoted to full membership:

- › Ben Marett
- › DL Good Plumbers
- › Halt Fire

And to the following new Provisional member:

- › Control & Service Fire Ltd

Until next month,

Scott Lawson
Chief Executive Officer, FPANZ

learners

What's changed

Improved learning modules

Content that reflects current industry practice, so your team is learning what applies on the job.

Clearer assessment questions

Less ambiguity means learners progress faster, keeping your team's training on track.

Better assessment guide flow

A more logical structure means smoother completion and qualified people in your business sooner.

HOFFE SIG Update

› Authors **Steve Smith & Lance Hunt** – HOFFE SIG Chairs

Well, we are almost halfway through the year and an election is approaching so the politicians are busy making promises. Who knows, they may even keep some of them!

Anyway, in our workspace we are consistently getting questions about Lithium-Ion and we all know that there are many fire-fighting options being touted for these dangerous and aggressive fires that involve Electrically Energized Equipment (Class E).

A fire involving Lithium-ion batteries has many inherent dangers such as the dangerous toxic vapours, however one that isn't often spoken about is the risk of an electric shock, this can come from the damaged battery packs, exposed battery cables and exposed battery cells as these may contain what is referred to as "stranded energy".

The amount of stranded energy left is almost impossible to reliably measure but it is defined as the residual charge left in a Lithium-Ion battery following equipment failure, damage, a crash or similar incident. It is worth noting that this can also lead to reignition, explosions and thermal runaway which as we know can be very damaging.

It is also worth noting that if the stranded energy can find a pathway back to you then you may well get a potentially significant electric shock. This can be due to contact via metal objects or through an aqueous stream such as water or via another water-based fire suppressing agent.

It is also important to note that Lithium-Ion is very different to Lithium (Class D) and as such under the AS/NZS standards framework a fire extinguisher approved for Class D fires is not recommended for fires involving Lithium-Ion.

Work is ongoing to cater for this class of fire within the AS/NZS standards – draft versions are potentially going to be available for comment later this year.

The next HOFFE Group meeting is on the 17th of June.

Regards,

Steve Smith & Lance Hunt,
HOFFE SIG Chair 2025/2026

Passive SIG Update

› Authors **Steve Bradburn** – Passive SIG Chair

We are into May already, and it's great to see some fantastic Autumn weather. Long may it last.

It is good to see our industry moving away from builders doing firestopping toward more specialist subcontractors. Some of the main reasons for this would be systems are becoming more complex, councils being less tolerant of incomplete documentation and manufacturers preference for certified installers.

This is where it is important that we all work together as a team and put systems and processes in place to safeguard our industry.

The NZ construction market softened in 2024-2025, but forecasting for 2026 onwards in apartments, retirement villages, healthcare etc. bode well for the industry and will involve all aspects of Passive Fire Protection. Hopefully the forecasting is correct.

The government is trying to open NZ construction markets to more overseas-certified products to reduce costs and improve competition. That could reshape Passive Fire Supply chains over the next few years.

Some things to be mindful of would be more European systems entering NZ, increased competition amongst suppliers, pricing pressures and also complexities in proving compliance equivalence.

Nothing wrong with competition, but we need to ensure no inconsistency occurs and knocks the industry confidence.

We are still seeing the same bottlenecks with Passive Fire, being labour and competency, I feel our industry still struggles with inconsistent installation quality, misunderstanding of design intent and site execution, formal training pathways. These are becoming more visible because inspectors are tougher and digital records and defects are easier to trace back to contractors. It is important to have trained installers, strong QA, and a good understanding of manufacturers products.

Regards,

Steve Bradburn,
Passive SIG Chair 2025/2026

ENTRIES OPEN 5 JUNE

The FireNZ committee would once again like to recognise the industry participants who have excelled in their fields.

“The fire industry awards represent the best of the fire industry and recognise those that contribute to achieving a safer New Zealand”

Entries are now sought for several awards to be presented at this year’s FireNZ conference and exhibition, 8th – 10th September 2026, in Christchurch.

THIS YEAR’S AWARD CATEGORIES:

- Mt Hutt E-Learning Emerging Fire Professional/Technician Award
- Ryanfire Fire Engineering Excellence Award
- Onestaff Excellence in Service Award
- FireZone Sustainability Award
- Fireshield Innovative Product Award
- Bensan Best ACTIVE Project Award
- BossFire Best PASSIVE Project Award

THE FORUM OF FIRE PROTECTION, FIRE SAFETY AND FIRE ENGINEERING PROFESSIONALS

Member benefits keep getting better.

FPANZ & FCIA are excited to announce the following updates & offerings to New Zealand-based members:

MANUAL OF PRACTICE REVISION

FCIA are currently revising the Manual of Practice (MOP) to ensure it serves as a superior, globally accepted standard. Our goal is to provide a framework that allows regions to plug in their own localised tools and offerings.

To further support this, we have launched two new membership types to engage design professionals and students. We would like to build on our existing MoU to offer these to the New Zealand industry.

NEW FCIA MEMBERSHIP CATEGORIES:

| Category | Target Audience | Fee (USD) | Key Benefit | Application Form |
|------------------------|--|------------|--|--|
| Designer Member | MEP Consultants, Architects, and Specifiers. | \$200/year | Access to Firestop Education (Level 0 & 1) | Scan QR or click here to download Designer Member application form  |
| Student Member | Students in Architecture, Engineering, or Fire Protection. | \$50/Year | Access to Firestop Education (Level 0 & 1) | Scan QR or click here to download Student Member application form  |

n3 Trade Card and Bunnings PowerPass Changes

We've got some changes on the way at n3. FPANZ Members will still receive the same great discounts and offers from n3 and our Suppliers, but the way they access these discounts will change from 1 April 2026.

1. **TRADE CARD APP:** n3 is transitioning the physical n3 Trade Card product exclusively to the mobile app. The app offers faster access, easier management, and greater efficiency.
 - › **Member management:** Members can be easily added or removed.
 - › **Instant access to start saving:** No production or mailing delays - Members can download the app and start saving straight away.
 - › **Supplier management:** Supplier offers can be added instantly, and Members notified.
 - › **Better for the environment:** Reduced printing, postage, and delivery costs, and plastic waste.

2. **BUNNINGS POWERPASS:** Members currently using the n3 Trade Card with Bunnings will need to migrate to Bunnings PowerPass to continue receiving their n3 discounts. Alternatively, they can set up a credit account with Bunnings.
 - › **More functionality:** Check live pricing, confirm product availability, use self-checkout to save time, and access digital receipts in one place.
 - › **Simple setup:** Registering for a PowerPass account is quick and easy. Once set up, your Members can use it at Bunnings stores nationwide.
 - › **Team access:** Your Members can allocate PowerPass cards or app access to their team so they can continue using the n3 discount on cash purchases.
 - › **Tailored trade pricing:** n3 pricing will be automatically applied to their PowerPass account.

In the coming months, Bunnings will be phased off the n3 Trade Card app, so it's important that FPANZ Members start migrating to PowerPass to continue receiving their n3 discounts.

NEXT STEPS

n3 will communicate directly with your Members about these changes, including the migration to the Bunnings PowerPass and the move to the Trade Card app.

Please feel free to contact me with any questions. Your support through this transition is much appreciated.

Use of FPANZ Logo

Recently we have noticed that some of our FPANZ members (and even non-members) have been incorrectly using our FPA trademarked corporate logo.

This logo is not to be used by any entity without the written permission of the Chief Executive Officer and/or FPANZ Board. The purpose of this logo is to provide a corporate identity for the Association in its general course of business activities.

The FPANZ membership tier status logos shown below are licensed to be used by any financial member of FPANZ who has signed up to the FPANZ Code of Ethical Conduct and is fully compliant with all its requirements.

For a list of logo guidelines please visit our website <https://www.fpanz.org/about/logo-guidelines>

If you are using an incorrect logo and would like to request a membership logo for use, please email info@fpanz.org

If you are not an FPANZ member and have not gained written permission to use the FPA logo, then we ask that you remove it from your website, email signature or anywhere else that it is currently being used.
